QUICK START GUIDE: Enterprise Mobile Manager

QUICK STEPS	3
Three Initial Steps for the Enterprise Mobile Manager 2014	3
Upload Apple Push Certificate	4
Add a User and a Device	5
Create or edit a Group Profile	6
Assign a Group Profile	7

QUICK STEPS

Three Initial Steps for the Enterprise Mobile Manager 2014

- To manage iOS devices upload an Apple Push Certificate in "General Settings" > "iOS Configuration".
- 2. Add a User and a Device. Using the gear icon whilst a group is selected, click "Add User". To add a device, select the user the device belongs to, press the gear icon and click "Add and Enroll a device".
- 3. To push a change in a Device- or Group Profile configuration to the device, click on "Save" and "Assign now" at the bottom right of the console.

Optional:

- 4. Create a Group Profile. Go to "General Settings" > "iOS Profiles" and select the gear button on the top left.
- 5. Assign a Group Profile to a group. Select a group and choose the profile on the right side. Save the setting with the "Save" option at the bottom right of the console.

Upload Apple Push Certificate

To manage iOS devices upload an **Apple Push Certificate**, this is only required on first install of the console.

Go to "General Settings" > "iOS Configuration" (Please follow the instructions in the console.).

1. Enter your Apple-ID.

		APNS Certificate		
1	Account Overview			
	Global Configuration	Enter Apple ID	2 Upload Push Cert 3 Certificate Summary	
5	Privacy			
Ú	Apple Configuration	No certificate installed yet !		
	Windows Configuration	Enter your Apple ID	test@apptec360.com	
	LDAP Configuration	Next Step		
	App Management 🗸 🗸			

- 2. Click "Submit" and download the "signedpushcertificate.txt".
- 3. Upload the "signedpushcertificate.txt" to the Apple Push Certificates Portal.
- 4. Download the .pem file from Apple Push Certificates Portal page and upload it into the EMM console.

Now you are ready to enroll iOS devices and send configurations Over-the-Air.

Add a User and a Device

In the MDM console, select a group. Click on the Gear icon and Select "Create a user".

 ✓ Q Search here 	Default Group	
🔺 🏯 Root	🐣 Create a Subgroup	Device Property
AppTec	🔊 Edit selected Group	Corporate
	👧 Delete selected Group	Employee
	B Mass Enrollment	2 mpiloyoo
	Mass Assignment	Corporate
	💂 Create a User	Employee
	Android Phone	Corporate
	Android Phone	Employee

Select the User to whom the device belongs to. Click on the gear icon and select "Add and enroll a device".

				P A Ent
 ✓ Q Search here 	斄 АррТес			
🔺 🏯 Root	💂 Edit user		n Ta a	
A 🚇 Default Group	💂 Delete user		prec	
> 💆 Applec	+ Add and enroll a Dev	ice		

5

Assign a configuration

To assign a configuration, edit some settings in the console click "Save Changes" and "Assign now" at the bottom of the console.

Passcode history (1-50 passcoo	des, or none)				0
Grace period for device lock		None		~	0
Maximum number of failed a	ittempts	none		~	0
gs DashBoard		Save Changes			

Create or edit a Group Profile

1. Select a group in the navigation on the left. Then press the Gear button on the left side in the profile list.

🗸 🔍 Search here	Group Profiles	
🖌 🏯 Root	Davias Tura	Device Broneth
🕨 🏯 Default Group	Device Type	Device Property
	iPhone	Corporate
	Profile: Default iOS Phone Profile	Employee
	Create a new Profile	Corporate
	Edit Profile	Employee
	Copy Profile	Corporate
	Android Phone	Employee

- 2. Define a name for the Group Profile.
- 3. Define the required settings and press the "Save" button.
- 4. To assign a group profile or individual configuration click on "Assign now" at the bottom right of the console.

Assign a Group Profile

1. Select a group on the main page and choose the required profile on the right side. Save the changes.

🔺 🏯 Root		Device Type	Device Property	Selected Profile		Status
🔺 🟯 Default Group	*	:Dhana	Ormania	Tool Do Do		04
AppTec	*	IPhone	Corporate	Default iOS Phone Profile	å	
	*	iPhone	Employee	Empty Profile		On
	*	iPad	Corporate	Inherit from parent group		On On
	*	iPad	Employee	Test Profile	×	On
	- 1					
	*	Android Phone	Corporate	Default Android Phone Profile	~	On
	*	Android Phone	Employee	Default Android Phone Profile	~	On

The configuration for the group will be inherited from the top down based on the hierarchy path. You can use the default Group profile setting or you can create additional device specific settings as needed.
